### INSTRUCTIONS:

Please circle the answers that come closest to your everyday experience. Notice that each choice includes a percentage. You can use this to help you decide on your answer. For example, if the statement is true about 75% of the time, circle C for that item.

- A Always (99%)
- B Almost Always (87%)
- C Generally (75%)
- D Half-the-time (50%)
- E Occasionally (25%)
- F Seldom (12%)
- G Never (1%)

If you have not experienced the situation we described, try to think of a similar situation that you have been in and respond for that situation. If you have no idea, leave that item blank

Notice that for some items, an answer of Always (99%) means you have few problems. Other items are written so that an answer of Always (99%) means you have a lot of problems. Here is an example. In item (a), an answer of Always (99%) means that you usually have problems. In item (b), the same answer means that you only have problems once in a while.

### EXAMPLE
